MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

Our discussion and analysis of the Toms River Fire Commissioners, District No. 2's financial performance provides an overview of the District's financial activities for the years ended December 31, 2015 and 2014.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statements of Net Position and Governmental Funds Balance Sheet and Statements of Revenues, Expenses and Changes in Governmental Fund Balances and Net Position provides information about the activities of the District as a whole and present a longer-term view of the District's finances. For governmental activities, these statements tell how district services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. The remaining statements provide financial information about activities for which the District acts solely as a Board for the benefit of those outside of the government.

Reporting on the District as a Whole

The Statements of Net Position and Governmental Funds Balance Sheet and the Statements of Revenues, Expenses and Changes in Governmental Fund Balances and Net Position

One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of the year's activities?" The Statements of Net Position and Governmental Funds Balance Sheet and the Statements of Revenues, Expenses and Changes in Governmental Fund Balances and Net Position report information about the District as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. You can think of the District's net position – the difference between assets and liabilities – as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the District's property tax base and the condition of the District's equipment that was regularly inspected by the chief to assess the overall health of the District.

Management's Discussion and Analysis (continued)

During the fiscal year ended December 31, 2015, the District implemented two new Governmental Accounting Standards Board ("GASB"), GASB Statement 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*, relative to its participation in the Public Employees Retirement System (PERS). Historically, the District has recorded its contributions to the plan as expenses in the year these contributions were required by the State of New Jersey Division of Pensions and Benefits. With the adoption of GASB 68, the District is required to record a liability in its financial statements for its proportionate share of the PERS plan liability and expenses. As a result of implementing these statements, the cumulative effect on the financial statements as reported as of December 31, 2014 was a net decrease in unrestricted net assets of \$487,261. Additionally, liabilities increased by \$498,396 which reflects the District's proportionate share of its net pension liability, deferred outflows of resources increased by \$33,831 and deferred inflows of resources increased by \$29,702. All employers who participate in the PERS are being required to record a proportionate share of the \$46,170,131,656 and \$38,849,838,953 total net pension liabilities at June 30, 2015 and 2014, respectively, in their financial statements.

In the Statements of Net Position and Governmental Funds Balance Sheet and the Statements of Revenues, Expenses and Changes in Governmental Fund Balances and Net Position, we divide the District into two kinds of activities;

- General Fund activities – Most of the District's basic services are reported here. Property Tax Levies finance most of these activities.
- Capital Fund activities – The District's equipment acquisitions are financed by prior levies and approved by the taxpayers. The District's acquisitions are reported here.

Reporting on the District's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required to be established by State law and by bond covenants.

- General funds – Most of the District's basic services are reported in general funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The general fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. General fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. We describe the relationship (or differences) between general fund activities (reported in the Statements of Net Position and Governmental Funds Balance Sheet and the Statements of Revenues, Expenses and Changes in Governmental Fund Balances and Net Position) and capital funds in reconciliation at the bottom of the fund financial statements.

The District as a Board

Reporting on the District's Fiduciary Responsibilities

The District is a board of commissioners that are charged with the safety and protection of the residents within its boundaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Governmental Activities

The General Fund is used mainly to provide fire protection to its residents, educate the public as to fire prevention and precaution, and to train qualified personnel. All other governmental revenues are reported as general. It is important to note that all taxes are classified as general revenue even if restricted for a specific purpose. Capital Fund Activity is used mainly to provide for the acquisition of major fire equipment for fire extinguishment.

THE DISTRICT'S FUNDS

The following schedules present a summary of general, capital fund revenues and expenditures for the fiscal years ended December 31, 2015 and 2014 and the amount and percentage of increases and decreases in relation to the prior years.

Most expenditures are contractual in nature and because of market fluctuations, they can vary from year to year depending on the circumstances. Overall, the District experienced an increase in total expenditures of approximately \$145,000, or 6%, mainly due to increase of fringe benefits, joint board expense, and depreciation.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the Board revised the General Fund budget two times. These budget amendments were a transfer within appropriations as a precaution to avoid over expending a line item.

The budget relied on the expectation of an increase in the total tax levy. For 2015, the district tax base decreased but the assessed tax rate increased to \$.075 from \$.065 which produced an increase in tax revenue of approximately \$460,000. For 2014, the district tax base and tax rate decreased slightly which produced a decrease in tax revenue of approximately \$53,000.

INDEPENDENT AUDITORS' REPORT

Board of Fire Commissioners
Toms River Fire Commissioners, District No. 2
Ocean County, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Toms River Fire Commissioners, District No. 2, Ocean County, New Jersey as of and for the years ended December 31, 2015 and 2014, and related notes to the financial statements, which collectively comprise Toms River Fire Commissioners, District No. 2's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Toms River Fire Commissioners, District No. 2's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America as applied to governmental units and the standards applicable to special districts which have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and in compliance with the audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Toms River Fire Commissioners, District No. 2, Ocean County, New Jersey as of December 31, 2015 and 2014, and the results of its operations for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter – Change in Accounting Principle

As discussed in Note 8 to the financial statements, during the fiscal year ended December 31, 2015, the District adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an Amendment to GASB Statement No. 68, which represents a change in accounting principle. As of December 31, 2013, the Authority's net position was restated to reflect the impact of the change in accounting principle. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

The accounting principles generally accepted in the United States of America required that the Management's Discussion and Analysis on page A1 through A7, Schedule of the District's Proportionated Share of the Net Pension Liability – PERS, and Schedule of the District's Contributions – PERS on page 28 to 29 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

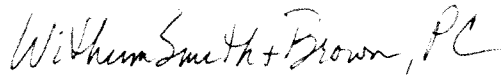

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise Toms River Fire Commissioners, District No. 2's basic financial statements. The accompanying financial information listed as Other Supplementary Information and Other Schedules, as listed in the table of contents, is presented for purposes of additional analysis and is not required part of the financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2015 and 2014 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information and Other Schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Statistical Information and Roster of Officials have not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 21, 2016 on our consideration of the Toms River Fire Commissioners, District No. 2's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Toms River Fire Commissioners, District No. 2's internal control over financial reporting and compliance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditors' Report

Board of Fire Commissioners
Toms River Fire Commissioners, District No. 2
Ocean County, New Jersey

We have audited, in accordance with auditing standards generally accepted in the United States of America, in compliance with the audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Toms River Fire Commissioners, District No. 2, Ocean County, New Jersey, as of and for the years ended December 31, 2015 and 2014, and the related notes to the financial statements, which collectively comprise Toms River Fire Commissioners, District No. 2's basic financial statements, and have issued our report thereon dated September 21, 2016.

Internal Control over Financial Reporting

In planning and performing our audits of the financial statements, we considered Toms River Fire Commissioners, District No. 2's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Toms River Fire Commissioners, District No. 2's internal control. Accordingly, we do not express an opinion on the effectiveness of Toms River Fire Commissioners, District No. 2's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

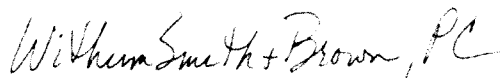

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audits we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Toms River Fire Commissioners, District No. 2, Ocean County, New Jersey financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Notes to Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General Statement

The accounting policies of the Toms River Fire Commissioners, District No. 2 (District) conform to the accounting principles generally accepted in the United States of America and the standards applicable to special districts which have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. For the years ended December 31, 2015 and 2014, the financial statements of the Toms River Fire Commissioners, District No. 2 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Reporting Entity

The district is an instrumentality of the State of New Jersey, established to function as a special district. The Board of Fire Commissioners consists of elected officials and is responsible for the fiscal control of the District.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB *Codification of Governmental Accounting and Financial Reporting Standards*, is the degree of oversight responsibility maintained by the District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds and account groups of the District over which the board exercises operating control. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the fiscal 2015 and 2014 year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

Basis of Presentation

Combined Fund and Government-wide Financial Statements

As a special purpose governmental entity engaged in a single governmental program the District has opted to present its financial data in the form of combined fund and government-wide financial statements to simplify their annual financial reporting process.

The accounts of the district are maintained in accordance with the principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds or account groups in accordance with activities or objectives specified for the resources. Each fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types". The District does not maintain any proprietary or fiduciary funds.

Governmental Fund Types

General Fund: The general fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund.

Toms River Fire Commissioners, District No. 2
Ocean County, New Jersey
Notes to Financial Statements
December 31, 2015 and 2014

Capital Fund: The capital fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities and firefighting equipment. The financial resources are derived from the issuance of debt or by reservation of fund balance that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

In conformity with GASB 34, the District's combined fund and government-wide financial statements present adjustments to reconcile the general and capital fund balances to net position.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the useful lives of capital assets and depreciation expense.

Basis of Accounting

Fund Basis of Accounting

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, expendable trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

Ad Valorem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its fire districts the entire balance of taxes in the amount voted upon or certified prior to the end of the year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

Government-wide Basis of Accounting

The government-wide statements are presented using the accrual basis of accounting. Under the full accrual basis, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Budgets/Budgetary Control

Annual budgets are prepared each year for the operations of the fire districts. The budgets are approved by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. The budgets are then voted upon by the public. The budgetary transfers may be made during the last two months of the year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and the fund basis of accounting previously described. Encumbrance accounting is

also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at year end.

Encumbrances

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Specific encumbrances in governmental funds are reported as liabilities at year end as they constitute expenditures or rather commitments related to unperformed contracts for goods and services.

The encumbered appropriation authority carries over into the following year. The balance of the unencumbered appropriations is recorded as a reserve to fund balance for unrecorded expenditures and commitments that pertain to the prior year. At the end of the following year, an entry will be made to fund balance for the unexpended appropriations of the prior year.

Fixed Assets

In the fund financial statements, fixed assets used in governmental operations are accounted for as expenditures of the government fund upon acquisition.

In the government-wide basis of accounting, fixed assets are accounted for as capital assets. The District generally capitalizes assets with a cost of \$5,000 or more as outlays occur. All fixed assets are valued at historical cost or estimated historical cost if actual is unavailable.

The cost of normal maintenance and repairs that do not add the value to the asset or materially extended asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized when projects are constructed. Interest incurred during construction is not capitalized.

Depreciation of all fixed assets is recorded as an operating expense in the Statement of Revenues, Expenses, and Changes in Governmental Fund Balances and Net Position with accumulated depreciation reflected in the Statement of Net Position and Governmental Funds Balance Sheet. Depreciation is provided over the assets' estimated useful lives using the straight line method of depreciation, generally 5 years for general purpose vehicles, 5-10 years for firefighting equipment, 15-20 years for firefighting vehicles and 39 years for leasehold improvements.

Impairment of Capital Assets

In accordance with the provisions of the pronouncement related to accounting and financial reporting for impairment of capital assets, the District assesses capital assets for impairment whenever events or changes in circumstances indicate that the service utility of the capital asset have both significantly and unexpectedly declined. For the years ended December 31, 2015 and 2014 management has determined that there was no impairment of capital assets.

Interfund Transactions and Balances

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them. Transfers between the general and capital fund of the District net to zero on the Statement of Revenues, Expenses and Changes in Governmental Fund Balances and Net Position.

Ocean County, New Jersey
Notes to Financial Statements
December 31, 2015 and 2014

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Those loans are reported as interfund receivables and payables on the fund basis of accounting. Interfund payables and receivables between funds are eliminated in the Statement of Net Position and Governmental Funds Balance Sheet.

Long-Term Obligations

Long-term debt is recognized as a liability of a governmental fund. For long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund.

Deferred Outflows/Inflows of Resources

GASB Statement Number 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* establishes standards for reporting deferred outflows of resources, deferred inflows of resources, and net position.

Deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. Deferred inflow of resources represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. The District's deferred outflows and deferred inflows are a result of its participation in the pension plan (see Note 8).

New Accounting Pronouncements and Restatement

The District adopted GASB No. 68, *Accounting and Financial Reporting for Pensions, An Amendment of GASB No. 27* during 2015 as required by the pronouncement. The pronouncement requires the District to record its proportional share of the State of New Jersey's net pension liability on the face of its financial statements as of December 31, 2015 and 2014 and to record related pension expense in accordance with the pronouncement. In order to correctly reflect pension expense in accordance with GASB No. 68, the beginning net position of the District was adjusted to reflect the beginning balance of the net pension liability. Since the measurement date of the net pension liability is June 30, 2014 (as described in Note 8), the restatement adjustments to net position relate to the beginning net pension liability measured as of June 30, 2014.

As a result of these adjustments, the opening net position was reduced by \$487,261, which comprised a pension liability addition. Additionally, the 2014 year was restated to add an additional pension expense of \$7,006, along with pension deferred outflows of \$33,831, net pension liability of \$498,396, and pension deferred inflows of \$29,702.

Net Position

Fund Basis

Fund balance is reported in classifications depicting the relative strength of the constraint that controls how specific amounts can be spent. Classifications are as follow:

- **Nonspendable** – includes amounts that are not in a spendable form or not expected to be converted to cash (inventory, for example) or are legally and contractually required to be maintained intact (principal of an endowment fund, for example).

Toms River Fire Commissioners, District No. 2
Ocean County, New Jersey
Notes to Financial Statements
December 31, 2015 and 2014

- Restricted – includes amounts that can be spent only for the specific purposes stipulated by external resource providers such as grantors, contributors, creditors, or law or regulations of other governments or through enabling legislation that creates a new revenue source and restricts its use. Restrictions may be changed or lifted with the consent of resource providers.
- Committed – includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority, the Board of Commissioners. The constraint can only be removed or changed by taking the same type of action the District employed to commit those amounts. Such formal action consists of an affirmative vote by the Board of Commissioners.
- Assigned – comprises amounts intended to be used by the District for specific purposes, but are neither restricted nor committed. Intent is expressed by the District Board of Commissioners.
- Unassigned – this is the residual amount for the General Fund, and represents fund balance that has not been restricted, committed, or assigned. The General Fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned, it may be necessary to report a negative unassigned fund balance.

Government-wide Basis

Net position is displayed in three components:

- Net investment in capital assets – Consists of capital assets, net of accumulated depreciation.
- Restricted for capital acquisitions – Current balance consists of net position restricted for the expansion of the fire house, fire truck, brush truck and equipment.
- Unrestricted net position – All net positions that do not meet the definition of "restricted" or "net investment in capital assets".

Advertising

The District expenses advertising costs as they are incurred. Advertising expense for the years ended December 31, 2015 and 2014 approximated \$1,900 and \$1,000, respectively.

2. ADJUSTMENTS TO ARRIVE AT NET POSITION

Capital Assets – Net and Net Investment in Capital Assets

For the years ended December 31, 2015 and 2014 capital assets, net and net investment in capital assets in the amount of \$3,989,082 and \$3,553,741, respectively, have been included in the government-wide presentation.

Interfund Receivables and Payables

For the years ended December 31, 2015 and 2014 interfund receivables and payables in the amount of \$1,465,517 and \$1,456,985, respectively, have been eliminated in arriving at the government-wide presentation.

Ocean County, New Jersey
Notes to Financial Statements
December 31, 2015 and 2014

Fund Balances, Unrestricted Net Position, and Net Position Restricted for Capital Acquisitions

For the years ended December 31, 2015 and 2014 fund balances in the amount of \$2,392,677 and \$2,517,577, respectively, have been eliminated. Unrestricted net position in the amount of \$875,450 and \$635,311, respectively, and net position restricted for capital acquisitions in the amount of \$1,443,373 and \$1,456,446, respectively, has been included in the government-wide presentation.

Improvement Authorizations

Improvement authorizations, which are liabilities that represent the District's earmarking of fund balance for a specified future project, do not represent liabilities as defined by U.S. generally accepted accounting principles. Therefore, for the years ended December 31, 2015 and 2014, improvement authorizations in the amount of \$134,155 and \$60,838, respectively, have been eliminated in arriving at the government-wide presentation.

Deferred Charges to Future Taxation

For the years ended December 31, 2015 and 2014, amounts to be provided for future budget in the amount of \$35,003 each have been eliminated in arriving at the government-wide presentation.

PERS Payable

For accrual basis of accounting, a payable to a defined benefit pension plan is recognized on the face of the financial statements. Therefore, for the years ended December 31, 2015 and 2014, PERS payable in the amount of \$23,521 and \$-, respectively, have been included in the government-wide presentation.

Deferred Outflows/Inflows of Resources

Deferred outflows and inflows of resources related to pensions are future expense and revenue for GAAP purposes and not for budgetary purposes. Therefore, for the years ended December 31, 2015 and 2014 the deferred outflows of resources in the amounts of \$93,031 and \$33,831, respectively, and deferred inflows of resources in the amounts of \$10,762 and \$29,702, respectively, have been included in government-wide presentation.

Net Pension Liability

For GAAP purposes net pension liability is an accrual expense for future payments. It is not due in the current period for budgetary purposes. Therefore, for the years ended December 31, 2015 and 2014 the net pension liability in the amounts of \$595,893 and \$498,396, respectively, have been included in the government-wide presentation.

3. ADJUSTMENTS TO ARRIVE AT THE CHANGES IN NET POSITION

Operating Appropriations

For the year ended December 31, 2015, depreciation expense in the amount of \$254,558 has been included in the government-wide presentation. To account for fixed asset purchases expensed under the fund basis of accounting, non-bondable fire equipment has been decreased by \$27,202 and utilities and building maintenance has been decreased by \$17,000. Additionally, to account for expenditures applied to improvement authorizations under the fund basis of accounting, joint board expenses has been increased by \$438,434. Fringe benefits has been increased by \$23,521 for current year PERS contribution not made at the end of year and pension expense, net has been increased by \$19,357. The net effect on operating appropriations is an increase of \$691,668.

December 31, 2015 and 2014

For the year ended December 31, 2014, depreciation expense in the amount of \$228,009 has been included in the government-wide presentation. To account for fixed asset purchases expensed under the fund basis of accounting, vehicle maintenance has been decreased by \$11,923 and non-bondable fire equipment has been decreased by \$43,189. Additionally, to account for expenditures applied to improvement authorizations under the fund basis of accounting, joint board expenses has been increased by \$87,294. Also, pension expense, net has been increased by \$7,006. The net effect on operating appropriations is an increase of 267,197.

Capital Appropriations

For the year ended December 31, 2015 reserve for future capital outlays and related transfers have been reduced by \$208,750 on the government-wide presentation to eliminate the general fund expenditure and capital fund revenue related to the creation of improvement authorizations. Additionally, capital projects have been reduced by \$1,157,448 to eliminate the general fund and capital fund expenditures related to the creation of improvement authorizations. The net effect on capital appropriations and related transfers is a decrease of \$1,157,448.

For the year ended December 31, 2014 reserve for future capital outlays and related transfers have been reduced by \$545,000 on the government-wide presentation to eliminate the general fund expenditure and capital fund revenue related to the creation of improvement authorizations. Additionally, capital projects have been reduced by \$100,320 to eliminate the general fund and capital fund expenditures related to the creation of improvement authorizations. The net effect on capital appropriations and related transfers is a decrease of \$100,320.

Gain on Disposition of Capital Assets

Non-cash trade-in value for new purchase of capital assets is not reported in the funds for budgetary purposes. For GAAP purposes, the net book value of the assets, \$- and \$70,902, respectively, is included on the government-wide presentation for the years ended December 31, 2015 and 2014 to reflect the net gain on disposition of assets.

4. DEPOSITS AND INVESTMENTS

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey which are insured by the Federal Deposit Insurance Corporation ("FDIC"), or by any other agency of the United States that insures deposits or the State of New Jersey Cash Management Fund. New Jersey statutes require public depositories to maintain collateral for deposit of public funds that exceed insurance limits as follows:

The market value of the collateral must equal 5 percent of the average daily balance of public funds; or if the public funds deposited exceed 75 percent of the capital funds of the depository, the depository must provide collateral having a market value equal to 100 percent of the amount exceeding 75 percent.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000. The State of New Jersey Cash Management fund is authorized by statute and regulations of the State Investment Council to invest in fixed income and debt securities which mature within one year. Collateralization of fund investments is generally not required.

Ocean County, New Jersey
Notes to Financial Statements
December 31, 2015 and 2014

The cash on deposit is partially insured by federal deposit insurance in the amount of \$250,000 in each depository. Balances above the federal deposit insurance amount are insured by the Government Unit Deposit Protection Act (GUDPA), N.J.S.A. 17:9-41, et seq., which insures all New Jersey governmental units' deposits in excess of the federal deposit insurance maximums. Cash determined by the Board of Commissioners consists of all banks.

As of December 31, 2015 and 2014 the District's cash accounts consisted of:

	2015	2014
Santander – Check	\$ 12,564	\$ 1,026,222
Santander – Money Market	1,953,022	558,518
Santander – Payroll	11,328	12,368
Santander – Pension Account	<u>368</u>	<u>1,250</u>
Total Cash	<u>\$ 1,977,282</u>	<u>\$ 1,598,358</u>

The carrying amount of the Board's cash and cash equivalents at December 31, 2015 was \$1,977,282 and the bank balance was \$1,985,166. Of the balance, \$250,000 was covered by federal depository insurance and \$1,735,166 was covered by the Government Unit Deposit Protection Act (GUDPA), N.J.S.A. 17:9-41, et seq., for all New Jersey governmental units' deposits in excess of the federal deposit maximums.

The cash deposits held at financial institutions can be categorized according to three levels of risk as described below:

Category 1	Deposits which are covered by FDIC, or collateralized by securities held by the District or its agent, in the District's name	\$ 250,000
Category 2	Deposits which are collateralized with securities held by the pledging financial institution's trust department, or Agent in the District's name	1,735,166
Category 3	Deposits which are not collateralized or insured	-

Investments

New Jersey statutes establish the following securities as eligible for the investment of District funds:

- (a) Bonds or other obligations of the United States or obligations guaranteed by the United States.
- (b) Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Associates or of any United States Bank for Cooperatives which have a maturity date not greater than twelve months from the date of purchase.
- (c) Bonds or other obligations of the District or bonds or other obligations of school districts of which the district is a part or within which the school district is located.

Ocean County, New Jersey
Notes to Financial Statements
December 31, 2015 and 2014

- (d) Bonds or other obligations, having a maturity date of not more than twelve months from the date of purchase, which are approved by the New Jersey Department of Treasury, Division of Investments.
- (e) Qualified mutual funds with portfolios limited to (i) bonds or other obligations of, or guaranteed by, the United States of America; and (ii) repurchase agreements fully collateralized by such obligations. These investments must be transacted only through national or state banks located within New Jersey.

During the year, the District had none of its idle funds invested in repurchase agreements collateralized by eligible securities. At the close of 2015 and 2014, no such investments were held by the District.

As of December 31, 2015 and 2014, the District's investments consisted of:

	2015	2014
Certificates of Deposit:		
Hudson City	\$ -	\$ 235,064
M&T Bank	236,326	-
Investors	84,432	84,262
Shore Community	85,653	85,226
Kearney Federal Savings	86,696	86,310
Manasquan Savings	172,229	171,375
Santander Bank	228,540	228,077
Sun National	<u>229,269</u>	<u>228,611</u>
Total Investments	<u>\$ 1,123,145</u>	<u>\$ 1,118,925</u>

The certificates of deposits have terms ranging from 5 months to 13 months, with interest rate ranging from 0.20% to 0.98% and mature in various months of 2016. These CD's are covered by the FDIC.

Fair Value Measurements

Pursuant to the requirements of the accounting standard related to fair value measurements, the District has provided fair value disclosure information for relevant assets and liabilities in these financial statements. The following table summarizes assets which have been accounted for at fair value on a recurring basis as of December 31, 2015 and 2014, along with the basis for the determination of fair value:

	<u>Basis for Valuation</u> <u>Observable Measurement Criteria</u> <u>(Level 2)</u>
Certificates of Deposit - 2015	<u>\$ 1,123,145</u>
Certificates of Deposit - 2014	<u>\$ 1,118,925</u>

For applicable assets and liabilities subject to this pronouncement, the District will value such assets and liabilities using quoted market prices in active markets for identical assets and liabilities to the extent possible (Level 1). To the extent that such market prices are not available, the District will next attempt to value such assets and liabilities in active and inactive markets and other corroborated factors (Level 2). In the event that quoted market prices in active markets and other observable measurement criteria are not available, the District will develop measurement criteria based on the best information available (Level 3).

5. ASSESSMENT AND COLLECTION OF MONEY AUTHORIZED BY VOTERS

Upon proper certification pursuant to Section 9 of P.L. 1979 c. 453 (C.40[A]:14-79), the assessor of the municipality, in which the fire district is situate, shall assess the amount to be raised by taxation to support the district budget against the taxable property therein, in the same manner as municipal taxes are assessed and the same amount shall be assessed, levied and collected at the same time and in the same manner as other municipal taxes.

The collector or treasurer of the municipality, in which said district is situate, shall pay over all moneys so assessed to the treasurer or custodian of funds of said fire district as follows; on or before April 1, an amount equaling 21.25% of all moneys so assessed; on or before July 1, an amount equaling 22.5% of all monies so assessed; on or before October 1, an amount equaling 25% of all monies so assessed; and on or before December 31, an amount equaling the difference between the total of all monies so assessed and the total amount of such monies previously paid over, to be held and expended for the purpose of providing and maintaining means for extinguishing fires in such district.

Notwithstanding anything herein to the contrary, the municipal governing body may authorize, in the cash management plan adopted by it pursuant to N.J.S. 40A:5-14, a schedule of payments of fire districts moneys by which an amount greater than required on any of the first three payment dates cited herein may be paid over. The municipal governing body and board of fire commissioners may, by concurrent resolution, adopt a schedule of payments of fire district moneys by which an amount less than required in any of the first three payment dates, cited herein may be paid over. Such resolution shall be included in the cash management plan adopted by the municipal governing body pursuant to N.J.S. 40A:5-14.

The commissioners may also pay back, or cause to be paid back to such municipality, any funds or any part thereof paid to the treasurer or custodian of funds of such fire district by the collector or treasurer of the municipality, representing taxes levied for fire district purposes but not actually collected in cash by said collector or treasurer.

6. FUNDING

The activities of the Toms River Fire Commissioners, District No. 2 are primarily funded by the striking of a fire tax on the property owners of the Fire District, as provided for by state statute. For the years ended December 31, 2015 and 2014, the fire tax rate on Fire District No. 2 was \$.075 and \$.065, respectively, per \$100 of assessed valuation.

The tax revenue is supplemented by income earned on surplus funds invested in certificates of deposit and savings during the year.

The District participates in the Supplemental Fire Services Program and received a basic entitlement grant of \$9,899 and \$9,898 for the years ended December 31, 2015 and 2014, respectively.

7. AWARDS PROGRAM AND LOSAP

The district maintains an Awards Program for payments to certain retired personnel. This program is administered by the Commissioners of the District. The payments for 2015 and 2014 were \$3,600 and \$3,600, respectively. Effective July 1, 1993 the Board of Commissioners began a Length of Service Pension Program through an outside insurance company. Contributions by the district to this program have been made each year since its inception. The amount of contributions for 2015 and 2014 were \$227,055 and \$220,252 respectively. In 2015, the district over expended funds resulted in a decrease in the reserve by \$655, and in 2014, the district under expended funds resulted in an increase in the reserve

of \$8. Since this plan is administered by an outside insurance company, it was not made part of this audit. Detail of this program can be obtained from Toms River Fire Commissioners, District No. 2 upon request.

8. PENSION PLAN

Employees of the District that are eligible, participate in the State of New Jersey, Public Employees' Retirement System ("PERS"). PERS is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits ("Division"). For additional information about PERS, please refer to Division's Comprehensive Annual Financial Report (CAFR) which can be found at www.state.nj.us/treasury/pensions/annrpts.shtml.

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS. The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 and 25 or more years of service credit and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service.

Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Employer and Employee Contributions

The contribution policy for PERS is set by N.J.S.A. 15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. The local employer's contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. During the years ended December 31, 2015 and 2014, the PERS received employer and employee contributions as follows:

GASB 68 - Restatement

The District adopted GASB No. 68, Accounting and Financial Reporting for Pensions, An Amendment of GASB No. 27 during the 2015 fiscal year as required by the pronouncement. The pronouncement requires the District to record its proportional share of the State of New Jersey's net pension liability on the face of its financial statements and to record related pension expense in accordance with the pronouncement. In order to correctly reflect pension expense in accordance with GASB No. 68, the beginning net position of the District was adjusted to reflect the beginning balance of the net pension liability. Since the measurement date of the net pension liability is June 30, 2014, the restatement adjustments to net position relate to the beginning net pension liability measured as of June 30, 2013. Also, in accordance with GASB No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date, the District restated its Net Position for pension contributions made after the beginning net pension liability measurement date of June 30, 2013 (deferred outflows).

Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2015 and 2014, and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015 and 2014. In accordance with GASB 68, the measurement date shall not be earlier than 1 year from the statement of net position date; therefore, the District has elected to utilize June 30, 2015 and 2014 as the measurement dates, respectively.

The District's proportion of the net pension liability is based on the ratio of the contributions as an individual employer to total contributions to the PERS during the years ended June 30, 2015 and 2014. At December 31, the District's proportionate share and net pension liability was as follows:

	2015		2014
PERS net pension liability	\$ 46,170,131,656	\$	38,849,838,953
District net pension liability	\$ 595,893	\$	498,396

Actuarial Assumptions

The total pension liability in the June 30, 2015 and 2014 actuarial valuations were determined using the following actuarial assumptions, applied to all periods included in the measurement:

	2015	2014
Inflation rate	3.04%	3.01%
Salary increases from 2012-2021	2.15-4.40%	2.15-4.40%
	based on age	based on age
Thereafter	3.15-5.40%	3.15-5.40%
	based on age	based on age
Investment rate of return	7.90%	7.90%

For the years ended June 30, 2015 and 2014, mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2015 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	5.00%	1.04%
U.S treasuries	1.75%	1.64%
Investment grade credits	10.00%	1.79%
Mortgages	2.10%	1.62%
High yield bonds	2.00%	4.03%
Inflation-indexed bonds	1.50%	3.25%

Discount Rate

The discount rate used to measure the total pension liability was 4.90% and 5.39% as of June 30, 2015 and 2014, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 3.80% and 4.29% as of June 30, 2015 and 2014, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability measured as of December 31, 2015 and 2014, calculated using the discount rate as disclosed above as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

10. JOINT VENTURE

Several functions of the two Fire Districts of the Township of Toms River are performed on a pooled or shared basis. Expenditures are paid by District No. 1. The allocated portion of the disbursements is billed for reimbursement to District No. 2. This allocation is determined by a formula based on the ratio agreed upon by both districts. The joint activities produce revenues from fees charged at the Fire Academy and from fire inspection fees. The revenues are returned to each District based on their boundary of collections. For the years ended December 31, 2015 and 2014 expenditures, net of revenues, were \$671,393 and \$669,626, respectively.

The Board of commissioners of Fire District No. 1 has been designated as the "lead agency". As such, it is responsible for the bookkeeping of the joint activities.

11. VESTED EMPLOYEE BENEFITS

In accordance with GASB – 16 and NCGA – 1 (Governmental Accounting and Financial Reporting Principles), the portion of estimated future payments for compensated absences that will use current expendable resources is reported as a current fund liability in the governmental activities fund. For the years ended December 31, 2015 and 2014, the vested balances were \$114,758 and \$97,404, respectively.

12. RISK MANAGEMENT

The District is exposed to various risks of loss related to limited torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

13. RECLASSIFICATIONS

Certain accounts in prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements. Such reclassifications had no effect on the fund balances and net position.

14. SUBSEQUENT EVENTS

The District has evaluated subsequent events occurring after December 31, 2015 through the date of September 21, 2016, which is the date the financial statements were available to be issued. Based on this evaluation, the District has determined that no subsequent events have occurred which require disclosure in the financial statements.

A. BUDGETARY BASIS OF ACCOUNTING

There are no substantial differences between the District's budgetary basis of accounting and the fund basis of accounting described below.

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, expendable trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

Ad Valorem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its fire districts the entire balance of taxes in the amount voted upon or certified prior to the end of the year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

B. BUDGETARY-TO-GAAP RECONCILIATION

An explanation of the differences between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles follows:

	<u>Change in Fund Balance</u>
(1) Expenditures for long-lived assets are reported as expenses in the year the orders are placed for budgetary purposes. For GAAP purposes, the assets are capitalized in the year purchased and depreciated over the life of the asset.	\$ 44,202
Capital projects approved in the current year budget are reported as expenses in the year the funds are designated by voter election. For GAAP purposes, expenses are recorded when actual invoices are received. During 2015, \$438,434 was invoiced and paid to the joint board that related to capital projects.	719,014
For GAAP purposes, current year pension contribution not made at the end of year and pension expense, net are charged to expense. For budgetary purpose, they are expenditures when made.	(42,878)
Depreciation expense is not recorded on the budgetary basis of accounting. For GAAP purposes, capitalized assets are depreciated on a straight line basis over their respective useful lives.	<u>(254,558)</u>
Net increase in fund balance – budget to GAAP	465,780

(2) The amount reported as "fund balance" on the budgetary basis of accounting derives from the basis of accounting used in preparing the District's budget. (See Note A for a description of the District's budgetary accounting method.)

See Independent Auditors' Report.

Comments and Recommendations
Years Ended December 31, 2015 and 2014

Scope of Examination and Conditions of Records

Our examination covered the funds of the Board of Fire Commissioners, Toms River Fire Commissioners, District No. 2 handled by the Treasurer.

The financial records were maintained in good condition.

Minutes of Board meetings were properly maintained by the Recording Secretary.

Cash in Banks

The balances in banks at December 31, 2015 were reconciled with statements issued by the depositories.

Our examination revealed that the Fire District maintains its investments in various short term certificates of deposit.

Examination of Claims

Claims paid during the period under review were examined on a test basis to determine that they are submitted on Board vouchers, itemized, signed by the officials as to approval for payment, allocated to the proper accounts and charged to the proper fiscal period, and in agreement with bill list set forth in the approved minutes of the Board.

The District's five (5) Commissioners receive a fee for meeting attendance during the year.

Contracts and Agreements Required to be Advertised

For N.J.S. 40A:11-4

N.J.S. 40A:11-4 states, "Every contract or agreement, for the performance of any work or the furnishing or hiring of any materials or supplies, the cost or the contract price whereof is to be paid with or out of public funds not included within the terms of Section 3 of this act, shall be made or awarded only after public act or specifically by any other law. No work, materials or supplies shall be undertaken, acquired or furnished for a sum exceeding the aggregate of \$17,500 except by contract or agreement." Furthermore, contracting units now have a quotation threshold of \$2,625.

The members of the Toms River Fire Commissioners, District No. 2 have the responsibility of determining whether any contract or agreement might result in violation of the statute and, when necessary, the Board Attorney's opinion should be sought before a commitment is made.

The results of our examination indicated that one individual payment, contract or agreement was made "for the performance of any work or the furnishing or hiring of any materials or supplies", in excess of the statutory thresholds where there had been advertising for bids in accordance with provisions of N.J.S.A. 40A:11-21.

Miscellaneous

An exit conference was held in accordance with the Generally Accepted Government Auditing Standards in the United States of America.

See Independent Auditors' Report.
